## Gender Sensitization Seminar

Gender Sensitization is a fundamental prerequisite for understanding the sensitive requirements of a certain gender. It allows the students to evaluate their personal attitudes and ideas, as well as call into question the 'realities' we believed we knew. Educational settings instill thinking and shape one's view of what they believe.

On May 27, 2021, Dr. Swati Gadgil delivered a gender sensitization seminar. Dr. Swati discussed the relevance of gender roles in society. The roles of men and women in society, as well as the sensitive needs of each gender, were explored. SSBS students had an excellent conversation with Dr. Gadgil. This enables students for a communication among a diverse student population. There were 31 students present.

Dr. Swati Gadgil has published several medico-legal and general articles in various magazines and media. Dr. Swati is currently a writer for Lokmat on stress management and writes articles for yoga sakha and ishanyavarta magazines of the North East. Interviewed on numerous television channels and participated in panel discussions a number of occasions.

## Women's Day Walkathon event

"Choose To Challenge" is the theme for this year's International Women's Day. Women are an important component of society; they are the key to the survival of the human race, and their role in today's world is without question.

Every year on March 8th, International Women's Day is observed. The objective is to establish a gender-equal world. It is about honoring a woman's accomplishments and raising awareness about prejudice.

SSBS students and Staff participated in the Women's Day walkathon event

### Certificates of SSBS students who took part in the event
